

Steps to Change a License Plate Bracket

1. **Remove the clips or screws** attaching license plate holder to license plate bracket.
2. **Remove existing license plate bracket** by removing mounting bolts attaching it to lower bumper.
3. **Reinstall new bracket in place of the old** using new clip nuts and mounting bolts.
4. **Reinstall license plate frame** back onto bracket using regular or self-tapping screws.
5. You are done. Pat yourself on the back!
