Steps to Change a Tailgate Support Cable

1. **Open the tailgate.**
2. **Make sure the tailgate panel is supported** before proceeding to the next step.
3. **Remove the bolt holding the cable to the tailgate panel.**
4. **Pull tab on the upper end of the cable off of stud** on the vehicle to remove old cable. If the cable is bolted to body then remove bolt to detach old cable.
5. **Reinstall in reverse order.**
6. Close the tailgate and pat yourself on the back!
