

Koolzap®

Steps to Change an Undercar Splash Shield

1. **Secure the vehicle on level surface.**
2. Use a jack to **raise the vehicle.**
3. **Secure the vehicle with jack stands on both sides** for safety before starting any work.
4. **Remove the screws or the fastener tabs** and any retainer holding the old unit in place.
5. **Remove the old or damaged splash shield** by pulling it away from the vehicle.
6. **Reinstall in reverse order.**
7. Lower the jack and pat yourself on the back!
